

Why EU-India S&T Cooperation Days?

An opportunity to enhance, promote and facilitate S&T cooperation:

Informing – highlighting the opportunities for cooperation available for European and Indian researchers.

Networking – providing an opportunity for stakeholders from the EU and India to initiate cooperation in diverse fields of research, and to identify areas of common interest for future collaboration.

Training – encouraging and facilitating participation in EU research, including practical sessions about the 7th Framework Programme (FP7), the main instrument of the European Commission to finance research and technology development.

Research policy analysis and development – via interactive roundtable discussions the EU and India research agendas will be compared, in order to identify research priorities of mutual interest to both regions in view of potential future collaborations. Focus: Food, Agriculture, Fisheries and Biotechnology & Health.

Dissemination and visibility of ongoing initiatives and projects – discover EU-India S&T cooperation in practice.

This event is co-funded by the Seventh Framework Programme, European Commission

Structure of the Event
