PROJECT DESCRIPTION	
<p>Title of your research project in one sentence</p>	<p>TAPSIM – Trade, Agricultural Policies and Structural Changes in India’s Agrifood System; Implications for National and Global Markets.</p>
<p>Short description of project</p>	<p>The objective of the project is to study the impacts of domestic structural changes and trade agreements of India with the European Commission. The project will trace the overall macroeconomic and trade policies in India since 1980. The trends in Indian agricultural trade will be studied and issues related to comparative advantage of India over other countries in agricultural commodities will be reviewed. The study will identify the key processes of change and its impact on the Agrifood sector of India. Modeling tools will be developed for value chain analysis, analysis of demand for and supply of agricultural commodities, and forecasting the impact of policies on future developments of agriculture in India till 2020, 2025 and 2030. The findings will be eventually disseminated within the research and policy makers and key stakeholders in the Agrifood sector, both in India and the EU.</p>
<p>Description of expertise offered</p>	<p>Trade Specialist and Development of Value Chains in High Value Agriculture</p>
<p>Description of requested partner expertise</p>	<p>Agri-business(mainstreaming small holders in value chains) and Trade Issues.</p>
