PARTNERSHIP PROPOSAL

EU-India partnering event session participation:

Fork to farm: Food (including seafood), health and well being

Areas of activity (*Free keywords*)

Food safety Management Systems, Primary Livestock Production

PROJECT DESCRIPTION

| | |
|--|--|
| Title of your research project in one sentence | Generic Models Food Safety Management Systems (FSMS) at Livestock Primary Production |
| Short description of project | To-day primary production producers are considered as Food Business Operators, playing an important role in providing safe food to the consumer. Therefore developing and implementing an appropriate FSMS at primary production potentially can improve safety of the product. Development of FSMS generic models, along with Good Practices, for the various sectors of primary livestock production will support implementation of proper food safety measures at farm level. |
| Description of expertise offered | Experience from EU legal requirements and implementation in particularly in large units of livestock production |
| Description of requested partner expertise | Relevant experience for family farm level implementation of zoonotic and food safety control measures. |
