# PROJECT IDEA

(1)

*Fork to farm Fork to farm Fork to farm Fork to farm*

- Current international concept on food safety:
  - Preventative intervention the earliest possible, in the food chain
  - Livestock production holders are Food Business Operators (FBO) → increased role in producing safe food to the end consumer

SEVENTH FRAMEWORK  
PROGRAMME

# PROJECT IDEA

- Animal production holders need to develop FSMS
- Facilitate fulfilment of FBO responsibility by developing generic

Food Safety Management Systems

→ to be used as templates for tailor made systems, as required
